

HOW WORKPRO REDUCED RUSHER ROGERS' INDUCTION COST BY 83%*

WHO IS RUSHER ROGERS

Rusher Rogers is a white collar boutique recruiter specialising in permanent and temporary employment and a range of specialist HR solutions.

WHAT IS WORKPRO

WorkPro is a specialist WHS induction and screening solution. It centralises:

- Inductions
- Training
- Police Checks
- Visa Checks
- Licence Management

Uniquely once a candidate has completed any process they can share that information with any CML member licensed to use WorkPro.

WHY WORKPRO

"We wanted to streamline our temporary staff induction and screening processes and better educate our candidates on work health and safety matters."

"Now we've implemented WorkPro we benefit from:

- *Online delivery*
- *Consistent induction process*
- *Centralised info*
- *Transparent reporting*
- *Quicker processing from application to placement*
- *Cost effective "*

WHEN

We became a WorkPro client January 2013.

HOW IT WORKS FOR RUSHER ROGERS

"Prior to using WorkPro our inductions were inconsistent and we were spending up to 1hr managing the process per candidate.

Now candidates are able to complete their induction requirements prior to attending an interview. Email alerts advise of the induction completion of any process and we only need to validate the results or process a Police Check Candidate prior to placement at a client site."

THE IMPACT

We have saved time, money and effort. As a result we are able to have more meaningful client conversations and more accurately meet our legal obligations.

Let WorkPro help you.

WorkPro is a highly valued CML partner selected for their commitment to streamlining fundamental candidate compliance. Regardless of the size of your agency you can take advantage of the single low price of \$5 offered to CML members.

*This calculation is based on a \$60,000 salary and the induction taking 1 hour.
